Badger Alloys Announces New Members of Management Staff

MILWAUKEE, WIS – Badger Alloys Inc., a full-service sand-casting foundry based in Milwaukee, Wisconsin, is pleased to announce the addition of two new employees to its management team.

Antonio Melendez, PhD, joined the company as foundry engineer after serving as technical design engineer at Spokane Industries (Spokane, WA) since 2010. He received his doctorate degree in mechanical engineering from The University of Iowa in 2009, where he focused on solidification and casting simulation.

Scott Duncanson joined the company as machine shop manager. He brings nearly 40 years' experience in the machine tool industry, serving most recently as the applications engineering manager for Progressive Machinery, Inc. (Milwaukee, WI).

Badger Alloys' president and CEO, Rob Cowen, says, "We are excited about the addition of these individuals and are confident their strong backgrounds will help support the company's mission of creating world-class castings on time, on budget."

Located in the heart of Milwaukee and founded in 1966, Badger Alloys offers single-source capabilities for custom castings. The company pours more than 200 different alloys and includes a sand foundry, pattern shop and machine shop to offer customers fully integrated services.
